

NAOS undergoes a digital shift and chooses Yomly's cloud-based HR and Payroll solutions

Industry: Cosmetics

Client Since: 2021

Interviewed: Grace Advincula, HR Generalist

Locations: United Arab Emirates & KSA

Employees: 250+

Website: <https://naoscare.ae/>

Challenge

A disruptive and dynamic force in the beauty industry, NAOS was founded by Jean-Noël Thorel and has been offering a unique scientific approach to skincare that is rooted in biology, since 1977.

Headquartered in Provence, France, the company is strategically located in Dubai, to take advantage of the UAE's growing and dynamic culture.

"We had been looking for a dynamic platform that could evolve with the ever-changing needs of our business," says HR Generalist at NAOS, Grace Advincula. "We needed software that was easy to use and could automate all of our repetitive HR and admin tasks to improve workflow and employee experience. We were drawn to Yomly because of its sleek and stylish design, which is so easy to use."

"We have seen a clear decrease in the number of employees coming to HR with admin requests, as these can now be done through the app, which is a huge time saver for both our employees and our HR department."

Solution

NAOS selected Yomly to implement greater automation within their HR and admin processes. "Right from the start the team was hands-on, answering all our questions and concerns efficiently and professionally. The Yomly team worked to ensure that we were aligned on our requirements and our employees benefitted from the webinar explaining the platform's functionality," says Grace.

"The platform is so easy to use and our employees love the sleek and stylish design. Since implementation, we have been able to automate business travel requests, which has greatly benefitted our staff," says Grace.
